

Smart Voucher (Defense Finance and Accounting Service)

This may be helpful for the IMA Soldiers filing manual vouchers to DFAS for AT/ADT/ADOS-RC (NON-PCS). Should reduce the number of returned vouchers and supplemental vouchers.

The SmartVoucher makes it easier for Soldiers to complete their temporary duty (TDY) travel vouchers error-free. It goes step-by-step through a series of questions and once you are finished it will generate a completed DD Form 1351-2 travel voucher. The SmartVoucher makes sure that all required blocks on the voucher are filled. Soldiers need their myPay username and password to access SmartVoucher. SmartVoucher only applies to vouchers that are not processed in the Defense Travel System (DTS). SmartVoucher provides a checklist of required documents to include with your travel package based off responses to the questions within the application.
