AHRC-PLM-O

12 May 2010

MEMORANDUM FOR RECORD

SUBJECT: Change to Annual Training (AT), Active Duty for Training (ADT), and Active Duty for Operational Support – Reserve Component (ADOS-RC) Requests for Orders

1. A completed DA Form 7349 (Initial Medical Review - Annual Medical Certificate) is no longer required for AT, ADOS-RC, ADT request for orders packets.
2. In light of the annual requirement for a Period Health Assessment, a DA Form 7349 is now a redundancy that can be eliminated from the business practices of the Human Resources Command (HRC). The requirement for the form has been an HRC policy, not a regulatory requirement.
3. Effective immediately, do not delay any request for AT, ADT, or ADOS-RC orders for lack of a DA 7349. In addition, do not require the form for any future requests.
4. The point of contact is the undersigned at (314) 592-0000 extension 43426, steven.kesling@conus.army.mil.

A handwritten signature in black ink, appearing to read "Steven R. Kesling".
